Multitasking, Self-motivation, Fast learner, Communication, Team collaboration

EDUCATION

Full-Stack Web Developer Course 2023
Comprehensive training in full-stack development, covering front-end and back-end technologies such as HTML, CSS, JavaScript, Node.js, Express, and databases.

JavaScript Developer Course 2023
In-depth study of JavaScript, including ES6+, Node.js, and modern frameworks like React and Angular.

Python Developer Course 2023
Focused on Python programming, covering fundamental and advanced topics, including web development with Flask and Django.

PROFILE

Aspiring Software Engineer with a robust foundation in web development and programming, driven by a passion for creating efficient, user-friendly applications. Proficient in JavaScript, Python, and full-stack web development, with hands-on experience in building dynamic and interactive web applications. Strong problem solving abilities, self-motivated, and committed to continuous learning and improvement in the tech field.

EXPERIENCE

2023 — Portfolio Website
- Developed a comprehensive portfolio showcasing various web development projects.
- Utilized JavaScript for dynamic content and React for interactive 3D models.
- Integrated email handling through APIs for seamless communication.
- Ensured responsive design for optimal viewing on different devices.

2023 — Face Recognition Web App
- Created a full-stack application with React and Node.js for face recognition.
- Implemented user authentication and profile management with login and score features.
- Integrated a smart API to detect and highlight faces in uploaded photos.
- Managed user credentials and data with a secure PostgreSQL database.
- Emphasized security best practices to protect user data.

2023 — Self-filtering Website
- Designed and developed a website featuring a robust search filter.
- Built primarily using JavaScript and CSS, enhancing UI with external fonts.
- Focused on improving user experience through responsive and intuitive design.
- Employed AJAX for real-time data fetching and filtering.

2023 — Customer Care Specialist | CGS Romania
- Developed strong communication and problem-solving skills.
- Handled customer queries and provided effective solutions, enhancing customer satisfaction.
- Managed and resolved complex issues efficiently, contributing to team success.
